## Exclusive 50% Savings for CM&F Policyholders

“**Compliance Certified Program**”: [The.Gold.Standard.in.Therapy.Compliance](#)

Your CM&F insurance policy protects you when something goes wrong, this program ensures it doesn't!

**Build Trust. Reduce Risk. Elevate Your Practice.**

No one ever wants to have an insurance claim. That's why we are proud to introduce a complete compliance department for your therapy practice. If you have 1 location or 100+, worked with compliance services in the past or decided to figure it out on your own, we solved the mystery for you. Now, you can earn **Compliance Certified** designation by implementing the **7 Proven Components of an Effective Compliance Program**; the nationally recognized blueprint for regulatory excellence in therapy. **Get certified and protect what you've built.**

### Why Become Compliance Certified?

#### ✓ Strengthen Your Compliance Foundation

Regardless of where you land on the compliance spectrum, sleep well knowing that you have the best comprehensive policies, manuals, and safeguards built specifically for therapy clinics.

#### ✓ Reduce Audit & Whistleblower Risk

Be prepared! Establish a culture of compliance through defensible procedures, quality assurances and transparent oversight that's grounded in CMS, OIG, and payer guidelines.

#### ✓ Improve Practice Value & Stand Out in a Competitive Market

Buyers, payers, and referral sources value compliant practices. Certification enhances both perceived and real value. Display your *Compliance Certified badge* on your website, marketing materials, and clinic signage.

# A Complete Compliance Department Solution

## 1. Policy, Procedures & Manuals

Includes peer-reviewed and industry leading policies, procedures and manuals designed specifically for therapy practices.

## 2. Annual Staff & Student Compliance Training Modules

Commonly found, but uncommonly specific annual compliance training crafted just for you. Our efficient and effective training allows staff to understand exactly where the areas of risk are without being distracted by generic or vague content.

## 3. GAP Analysis

Discover where to focus your energy and resources with our Made-Simple, GAP Analysis. Replace nice ideas with actual resources that will have an immediate impact on your areas of exposure.

## 4. Liability Insurance Review

All insurance coverages are not created equal. Learn if your business and professional liability policies are appropriate for you with our Policy Analysis Service.

## 5. Anonymous Reporting & Incident Management

Empower staff to openly communicate concerns without fear of retaliation or intimidation. All inquiries are confidential and directed by a certified compliance officer.

## 6. Validate Internal Audit and Quality Assurance Validation

Using human or AI-powered auditing for documentation, coding and billing can be overwhelming, but our certified healthcare auditors will ensure your systems are valid and meaningful. *This also includes your front desk and facility operations.*

## 7. Security Risk Assessment

HIPAA privacy and security penalties are mitigated by the implementation of meaningful safeguards to protect your practice in how it secures protected health information. Our expert analysis will recommend and guide industry best practices for compliance of IT security.

# Risk & Compliance Analytics

## How It Works

### Step 1 — Enroll

Register your practice and get immediate access to content, tools and resources.

### Step 2 — Implement

Follow the guided checklist to schedule and complete the *7 Proven Components of an Effective Compliance Program* with your team.

### Step 3 —Validate

Demonstrate compliance by downloading your policies and completing each of the 7 components.

### Step 4 — Get Certified

Receive your official certificate and Compliance Certified badge.

*Your certification is awarded when all seven components are fully implemented.*
